📄 SUMMARY

I am a passionate, solution-oriented full-stack developer with a background in sales and multi-site management. I'm comfortable working with diverse teams and pride myself on my mid-western work ethic. I'm experienced in JavaScript, ReactJS, NodeJS, MYSQL, Express, REST APIs, and Git. I can build cohesive, interactive layouts and robust APIs to create an optimized and smooth experience for the end user.

🏢 PROFESSIONAL EXPERIENCE

Full Stack Software Engineer, Insideout Development

June 2022 – present

- Created backup backend supports to prevent loss of information using Digital Oceans as well as Weap.io
- Implemented password validation and password resets.
- Refactored React class components
- Front-end work using React hooks, Scss, and Javascript
- Backend work using Express, Node.js, and MySQL

General Manager, Gorilla Car Wash/CBC Oil & Wash

July 2011 – March 2022

- Promoted to multi-site general manager
- Ran 6 locations in 2 states
- Regulated the company's sales, safety, and work training
- Managed and completed repairs to reduce downtime
- Managed over 20,000 reoccurring members
- Handled all Employee and Customer claims

🧩 ACCOMPLISHMENTS

- Created and maintained a complete front-end and back-end web application for Insideout Development clients and employees to manage and self-asset daily person-to-person interactions and what they can do to enhance those interactions. React, Javascript, Nodejs, MySQL
- Collaborated with a small team to brainstorm improvements and features we can add to enhance the company's growth.
